HTML   AMP

Copy and paste the ad unit code in between the <body></body> tags of your pages

Place this code where you want an ad to appear. Do this for each individual ad unit, on every page.

```
<script async src="https://pagead2.googlesyndication.com/pagead/js/adsbygoogle.js"></s
<!-- adsd -->
<ins class="adsbygoogle"
     style="display:block"
     data-ad-client="ca-pub-5631813118592076"
     data-ad-slot="1447401046"
     data-ad-format="auto"
     data-full-width-responsive="true"></ins>
<script>
     (adsbygoogle = window.adsbygoogle || []).push({});
</script>
```

Copy code snippet

It usually takes a few minutes for ads to appear on the page but occasionally it can take up to an hour. See o
implementation guide for more details.
